ENJOY A MOVIE FROM HOME!

We've been working hard behind the scenes to bring you a carefully curated selection of films to view at home, as a way to keep us all connected and to help support the Downing Film Center through this difficult time.

How It Works: After you purchase a ticket by clicking on a ticket purchase link in our eNews or a PURCHASE button on our website, you will receive an access code for your chosen movie. You can view the movie any internet-connected device—laptops, tablets, smartphones, and most smart TVs (see your TV manufacturer's FAQ or instructions for guidance on how to configure your TV).

Cost: Because the films are being provided by various distributors, the ticket prices and the viewing windows for the films will differ. Ticket prices and information about the films are available on our website and in our eNews.

How It Helps the Downing: The distributor of each film will donate a percentage of the ticket purchase price to the Downing! Note that you must use the purchasing links/buttons in our eNews or on our website, which lead to the Downing's designated purchase page for each film.

We hope you enjoy these films, and we thank you for your continued support!
